

DYNAMO MONITOR ARM

Dynamic • Tool-less • Elegant

Dynamo is a dynamic monitor arm intuitively designed to deliver seamless handling across installation, mounting and adjusting.

Developed to move with you, Dynamo effortlessly rotates, pivots and extends, enabling tool-less and absolute adjustment to minimise eye and posture strain.

The detachable VESA mounting plates are easily adaptable to support Laptops, MacBook, Thin-Client PC and Tablets, making it ideal for a host of applications, from commercial workstations, home office, retail and general areas requiring continual adjustment.

Freedom to Move

- Tool-less rotational portrait-landscape adjustment.
- 180° locking mechanism for lateral arm movement.
- Dynamic gas strut for tool-less height and tilt adjustment

Modular Installation

- Detachable VESA plate allows independent monitor mounting.
- Top-access install clamp-base eliminates under-table installation.
- Suits 17-60mm top thickness.
- VESA-mount laptop tray available.

Quality Components

- Backed by a 5yr warranty.
- Dynamic arm tested to 100,000 cycles for stability at any angle.
- Load rating of 2-8 kg per monitor
- Resolved cable management with clips and detachable covers.
