WIRE GRID BASKET - 50MM WIDE

Wire management - Single & Dual tier solution

2 Tier shown with WGCD & WGCB Clips, GPO & Data tiles (not included)

A new 50mm flexible cable management basket with two new vertical mount-ing brackets, which allows the installer to switch between a two tier basket to a single tier basket.

The mounting brackets screw to the underside of the workstation or back into the modesty panel & allows the basket to 'snap' into the bracket. These baskets can also be cut to a custom length on site with the new plastic end caps available to tidy up the trimmed ends.

SOME OF THE FEATURES INCLUDE:

- Cost effective cable reticulation
- Different configurations are available
- Switch between Dual tier to single tier

WWL2.20 shown   *WWL1.10 shown*
